## Fullstack Developer

## EDUCATION

**2019-2022**      **Computer Science Engineering school by apprenticeship**  
ESIEE Paris, Noisy-le-Grand

**2017-2019**      **Computer Science Bachelor (DUT)**  
IUT Paris Descartes (Paris 5), Paris 16<sup>ème</sup>

## PROFESIONNAL EXPERIENCE

**June 2025**      **Fullstack Engineer – OLGA Project** (<https://www.olga-project.eu/>)  
**- Today**

- Design and development of the OLGA BiodiversIT platform framework
  - Deployment of OLGA BiodiversIT platform modules (containers) in a multi-cloud environment – Hostinger, AWS, GCP (Firebase)
  - Implementation of CI/CD pipelines with GitHub, Docker, Kubernetes, AWS EKS
- Technical environment : React, JavaScript, TypeScript, NodeJS (Express), Tailwind, Python, FastAPI, Firebase, Docker, Kubernetes, AWS EKS, GitHub

**January 2024**      **Front-end developer – Cimpa (Sopra Steria) – Courbevoie**  
**- May 2024**

- Development of widgets for 3DEXPERIENCE platform in Vue.js
  - Development of a resource-sharing website in Vue.js and Typescript
  - SNCF assignment: Development of Excel macros (VBA)
- Technical environment : Vue.js (Vue 3), Typescript, Javascript, Gitlab, Postman

**May 2023 -**      **Software engineer – AVISTO – Cachan**  
**December 2023**      **Back-end software developer assignment – ASN – Les Ulis**

- Design and implementation of PostgreSQL and SQLite databases for a local software
  - Development of features to read, update, insert and delete data in Java via JDBC
  - Added update history of remote database tables
- Technical environment : Java, PostgreSQL, SQLite, Git

**2019-2022**      **Web developer apprentice - Dassault Systèmes - Vélizy**

- Development of internal applications of the 3DEXPERIENCE platform.
- Deployment and iteration of applications to optimize and improve performance.
- Support

Technical environment : Javascript, PHP, CSS3, HTML5, SVN, MySQL

## SKILLS

**Web Development** : Vue.js, React, NodeJS, Tailwind CSS, Javascript, Typescript, Fast API

**Software Development** : Java, Python

**Database** : MongoDB, Firebase, PostgreSQL, MySQL, SQLite

**Devops** : Docker, AWS, Git, Github, Gitlab

**Test**: Postman, Junit, Jest

**Project Management**: Agile, Scrum, Jira
